

This activity is part of a series of legacy-building and memory-making activities offered through Hospice. Most of the activities are suitable or can be adapted for children of all ages. We encourage all members of the family to participate in any of the activities you select.

Stained Glass Star

Reproduced with permission from: The Legacy Project

<http://www.tcpnow.com/activities/stainglasstar.html>

Included Materials:

- Cotton balls
- Crayons
- Star pattern

Needed Materials:

- Vegetable oil
- Newspaper to cover and protect work area

Instructions:

1. Print copies of the Star Pattern. See attached sheet.
2. Use crayons to colour in the stained glass [star pattern](#) in a variety of bright colors. Choose colours that make the star stand out.
3. Cut out the rectangular-shaped pattern.
4. Using a cotton ball, rub vegetable oil on the **back** of the pattern. Lay it flat, crayon side down, on a couple of layers of newspapers to dry.
5. Once it's dry, you can tape the stained glass star in a window. It will look very pretty when the light shines through.

Tips and Suggestions:

- Make a wish upon a star! If it happens to be daylight, you can still have a star handy by making this simulated stained glass star to hang in your window. It's also a great gift younger children can make very easily.
